## **INHIGEO 44<sup>th</sup> SYMPOSIUM**

### **SECOND CIRCULAR**

The Organizing Committee of the 44th INHIGEO Symposium is delighted to welcome you to Varese and Como, the two main cities of the University of Insubria, in an area of North-Western Lombardy also known as the Italian 'lake district', located within the mountains and the attractive scenery of the Prealps bordering Switzerland.

In this Second Circular more information about the conference is provided, including registration, accomodation, airports and transportation.

### **CONFERENCE THEMES**

- History of the Earth sciences in mountain environments
- History of communication in the geological sciences.
- General contributions on the history of geology

### **ORGANIZING COMMITTEE**

Ezio Vaccari, *chair* (President of the Italian Society for the History of Science, Director of the Center for the History of the Mountains, Material Culture and Earth Sciences - CHMCES, University of Insubria)

Libera P. Arena (CHMCES, University of Insubria)

Andrea Candela (CHMCES, University of Insubria)

Carlo Dossi (Department of Theoretical and Applied Sciences, University of Insubria, Varese)

Maria Faccioli (CHMCES, University of Insubria)

Francesca Gambino (Department of Earth Sciences, University of Turin)

Pietro Mosca (Institute of Geosciences and Earth Resources, National Research Council, Turin)

Alessandro Michetti (Department of Science and High Technology, University of Insubria, Como)

Marco Pantaloni (ISPRA, Department of Geological Survey of Italy, Rome)

Donatella Reggiori (Transnational Association Official Guides of Monte San Giorgio, Meride)

Silvio Renesto (Department of Theoretical and Applied Sciences, University of Insubria, Varese)

Luigina Vezzoli (Institute of Geosciences and Earth Resources, National Research Council, Pisa)

with collaboration from Fabiana Console (ISPRA Library, Rome and Italian Geological Society)

## CONFERENCE VENUES

The welcoming reception will take place in the **Salone Estense, in the City Hall of Varese**. The *Palazzo Estense* was built between 1766 and 1771 by the Duke of Modena Francesco III d'Este who, having obtained the Seigniorship of Varese from Maria Theresa of Austria, moved his court here. The building and the garden, inspired by the Viennese Imperial residence in Schönbrunn and designed by the architect Giuseppe Bianchi, were completed in 1787.

The scientific sessions of the first two days of the Symposium will take place in the **Aula Magna (Great Hall) of the University of Insubria**, in the building known as *Collegio Sant' Ambrogio*, which is also the seat of the Rectorate and is located in **Varese** city center.

An evening scientific event will be held in **Villa Toeplitz (University of Insubria)**, built towards the end of the 19<sup>th</sup> century on a hill in the **Varese** district of Sant' Ambrogio Olona. The *Villa* was bought in 1914 by the founder of the Banca Commerciale Italiana, Giuseppe Toeplitz and was renovated with addition of a metal dome where an astronomic specula was installed. The building is surrounded by an eight-hectare garden-park, designed in the Italian and English styles.

The *Aula Magna* of the **Chiostro di Sant' Abbondio (University of Insubria)** will be the venue for the scientific session on the morning of the 4<sup>th</sup> day of the Symposium, in **Como**. The cloister, built in the 16<sup>th</sup> century as part of the medieval Basilica di Sant' Abbondio, is a great example of the Como Romanesque style. It is located outside the town walls, at the side of Monte Croce, in an area of great archaeological importance. It was restored both in the 19<sup>th</sup> and in the 20<sup>th</sup> century

The medieval **Visconti Castle** in **Somma Lombardo** (south of Varese) will be the venue for the final scientific session in memory of Nicoletta Morello, hosted by the Visconti di San Vito Foundation. The castle was built in 1448, when the brothers Francesco and Guido Visconti (members of the noble family Visconti of Milan), in order to escape disputes with the Ambrosian Republic, took refuge in their estate of Somma. Today the castle, having a large exterior quadrilateral appearance, encloses three castles built around three large courtyards, enhanced by porticos and with independent entrances.

## SPECIAL PROGRAM FOR ACCOMPANYING PERSONS

The special program will include guided tours to various sites and localities of cultural, artistic and archeological interest on 3, 4, 6 and 7 September: in Varese (*Sacro Monte, Santuario di Santa Maria del Monte*, Liberty style architectural heritage) and its surroundings (Lake Maggiore, *Eremo S. Caterina al Sasso, Rocca D'Angera*), in Como (town hall *Broletto*, Cathedral) and near Somma Lombardo (Archeological Park of Castelseprio). Accompanying persons will join the delegates for the walking tour on the historical-scientific heritage in Como city center (6 September, afternoon) and for the visit of the Visconti Castle in Somma Lombardo (7 September, afternoon). A detailed program of the tours will be available in the Third Circular.

## MID-MEETING FIELD TRIP

The mid-meeting one-day field trip (5 September), as a reconstructed Geo-Historical Itinerary, will start from Varese and will follow the path of the geo-paleontological excursion undertaken by the participants of the 7<sup>th</sup> meeting of the Italian Society of Natural Sciences in September 1878 in the area of Monte San Giorgio and Valceresio, within the Prealps north of Varese. Some ancient stone quarries and sites of 19<sup>th</sup> century paleontological excavations will be visited. Stops will include Brenno Useria (the history of the *Predera*, a subterranean quarry of sandstone called *pietra bianca*), the limestone quarries of Viggiù and Saltrio, a section of 'Monte San Giorgio geo-paleontological path' from Besano to the bituminous schist quarries and the middle-Triassic paleontological site of Rio Ponticelli. The field trip will end with a visit to the Museum of Fossils of Besano. Lunch will be provided in Viggiù by the *Società di Mutuo Soccorso (SOMS)*, a local association and school of arts and handcrafts. Please consider that the fieldtrip will include about 4 hours of walking distributed during the day, with some uphill sections. Sturdy footwear, a sun hat and a rain jacket are recommended.

## POST-MEETING FIELD TRIP

The post-meeting five-day field trip will begin in Varese on Sunday 8 September in the morning and will end in Varese on Thursday 12 September, not earlier than 7pm. Please note that accommodation for the first two nights (8-9 September) is not included in the fieldtrip fee: the participants are advised to extend their reservation at the hotels in Varese booked for the days of the conference.

**Sturdy footwear, sun hat, sweater and a raincoat are recommended. Inside the mines and the marble quarry it is wet and temperatures may drop to 10°**

### 1<sup>st</sup> day - 8 September

Departure from Varese in the morning; visit to the quarry *Cave Bonomi* in Cuasso al Monte (Valceresio, north of Varese), where the *Porfido Rosso di Cuasso* (red porphyry or granophyre) has been extracted and worked since the early 20th century; lunch; visit to the paleontological site of *Ca' del Frate* in the UNESCO World Heritage Site of Monte San Giorgio, one of the most important fossil localities in the world for the Middle Triassic (studied since the mid-19th century); Visitor Center Monte San Giorgio and Museum Insubrico of Natural History in Clivio; return to Varese.

### 2<sup>nd</sup> day - 9 September

Departure from Varese in the morning to the mining park in the Prealps north of Lecco; visit to the mines of *Piani Resinelli* (silver galena and blenda or sphalerite, exploited since the 16th century); lunch; visit to the mines of *Cortabbio di Prima Luna* (baryte, exploited since the middle of the 19th century); return to Varese.

 PARCO MINERARIO  
PIANI RESINELLI

 PARCO MINERARIO  
CORTABIO DI  
PRIMALUNA

### 3<sup>rd</sup> day - 10 September

Departure from Varese in the morning; visit to the marble quarry *Antica Cava Moschini* in Ornavasso (north-west from Lake Maggiore), which has been exploited since the 14th century and provided building material for some of the masterpieces of Italian art, including the Duomo of Milan, in particular for the outer covering and the slabs of the floors, the coatings of the apses of San Carlo and Santa Cristina in Turin, the facade of the Certosa di Pavia, the coating of the pillars in the Octagon of the Cathedral of Pavia; lunch and departure to Turin; geo-touristic walking-tour in Turin from the *Parco del Valentino* to the city center, including historical and architectural aspects of the buildings, as well as their geological features: the participants will be shown a variety of Alpine rocks used in palaces and historical monuments for both esthetic and structural reasons; welcome cocktail, check-in hotel in Turin.

Turin and the Alps (photo by Alberto Trivero)

#### 4<sup>th</sup> day - 11 September

Departure from Turin to its adjacent Susa Valley in the Piemonte region (NW Italy). The Susa Valley is a long valley located in the core of the Western Alps and is identified as one of the main corridors of communication between Italy and France. Selected sites will be used both to describe principal geological and geomorphological features of this part of the Western Alps and to discuss the development of theories and interpretation proposed by geologists during the 19th and 20th centuries. Buildings and monuments will be visited focusing on the rocks used in their construction. Morning stops will include Avigliana, Chianocco and Susa, with an introduction to the geology and the history of geology of the area; lunch; afternoon stops in Oulx, Cesana, view of Mt. Chaberton and Monginevro, in order to present some fundamental historical profiles for Alpine geology; return to Turin.

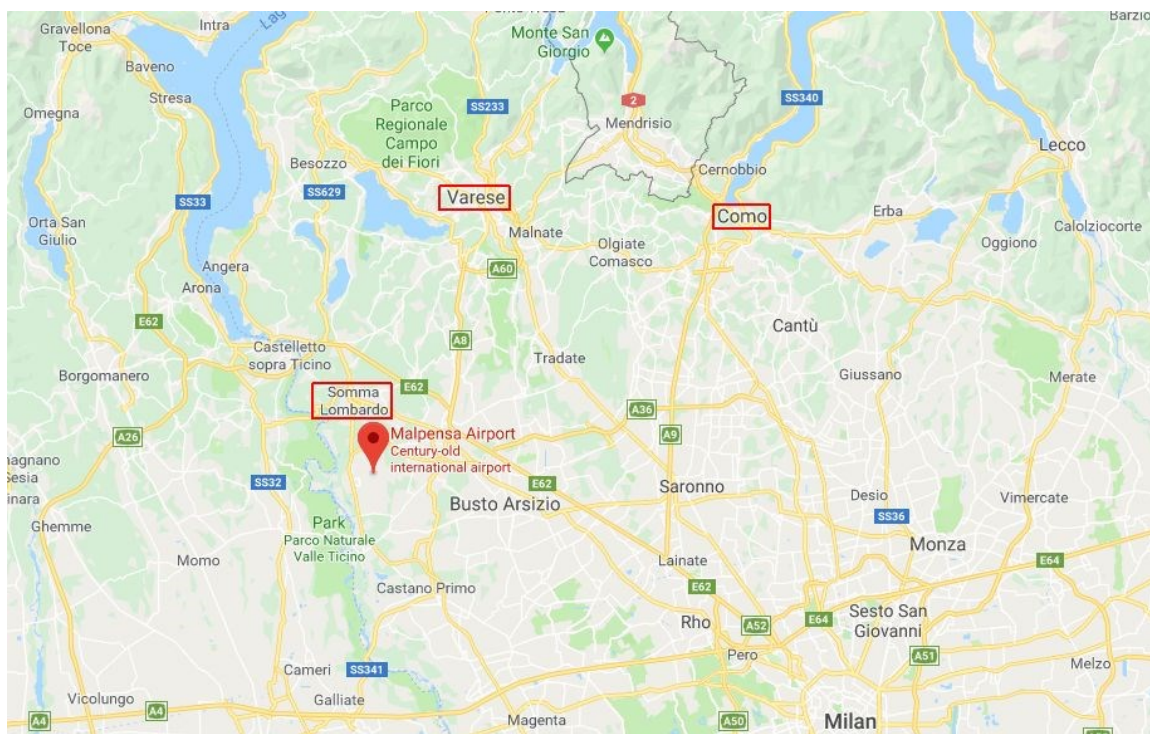

#### 5<sup>th</sup> day - 12 September

During the last day, participants will visit in the morning the *Museo Egizio* (Egyptian Museum) in Turin city center, the second most important Egyptian museum of the world, following an archaeological and archaeometric itinerary explained by an archaeologist and conservation scientists. Afterwards participants are free to have their lunch (not included in fieldtrip fee) in the city center of Turin. Departure in the early afternoon for the visit to the *Museo Nazionale della Montagna* (National Museum of the Mountain) located on the hill *Monte dei Cappuccini*; farewell cocktail and departure from Turin and arrival to Varese not earlier than 7pm.

**Participants who may decide to leave Italy at the end of the field trip directly from Turin International Airport (<https://www.aeroporto.torino.it/en>) must inform in advance the Organizing Committee ([inhigeo2019@uninsubria.it](mailto:inhigeo2019@uninsubria.it))**
